EXPERIENCE

Shine North
2014 - Present

• Shine North - **Various Projects - Development Researcher**
Working at Shine I worked in the development department and was responsible for developing new formats for TV, creating 'sizzle tapes' for broadcaster's viewing and casting new talent for future projects.

• Idris Elba Project - **Discovery Channel - Researcher**
My work on this project involved autonomously researching and developing contributors and sequences for the show, then pitching these ideas to the Producer and Director.

• Idris Elba Jaguar XE Campaign - **Jaguar - Researcher**
My work on this project involved organizing the logistics of a European roadtrip from London to Berlin. As well as booking hotels and flights for crew and talent that matched their needs and specifications.

• Car Crash TV - **Channel 5 - Researcher**
My work on this project involved ingesting, labelling, and judging thousands of clips based on their quality and usability within the shows brief.

• Danger Decoded - **National Geographic - Researcher**
My contribution to this project was to trawl archives of clips and make contact and negotiate with the rights holder should the clip be suitable for the project.

• School Food Plan Selfie - **School Food Plan - Various Roles**
I shot, edited, created gfx and co-directed this project. It involved working with young children with no prior experience of working on camera.

Digital Arcadia
2014 - Present

• Director/Producer - **Various Projects**
Two colleagues and I formed our own business, specializing in creating broadcast commercials for local industries and businesses.
