E-mail: simon@simonedwards.tv

Web: www.simonedwards.tv

I am a lighting cameraman/DP and unit manager/technical producer with wide range of experience on all types of productions from corporate and factual television through to sport and commercials, single and multi-camera work including OB and SNG.

Working throughout the UK and overseas, I have travelled extensively and have considerable experience and expertise dealing with the complexities of working in unusual and challenging environments, be that the Arctic Circle, the Empty Quarter in the UAE or just a typical English summer!

I am adaptable and happy to take on any challenge, whether that be managing a large team of camera's for a global event or working as a single person crew with a LiveU and SRT returns or even producing/directing content for brands
