**Drivers License
Based in London and Brighton**

I am conscientious and hard working and I enjoy putting my practical mind towards finding solutions and solving problems. I am self-motivated and enjoy working both as part of a team and independently without supervision. I am driven to continuously challenging myself and developing my skills in the film making industry.

The role I am most captivated by is 1st assistant directing. I believe my skills of being an organised, authoritative team leader matches the requirements in this department.
