ACO

association of camera operators

WEBSITE: <http://www.dcmimaging.com>

NATIONALITY: British

AFFILIATIONS: Association of Camera Operators (ACO)
Ex GBCT Board Member/Vice Chairman (Guild of British Camera Technicians) BECTU Member

CERTIFICATIONS: Experienced Aerial Drone Camera Operator
A 2 C of C Pilot Qualification

SPECIALITIES: Aerial Drone Main/2nd Unit Camera Operator on Features, TV
Drama and Commercials. 2nd Unit DOP/Camera Operator

PERSONAL ATTRIBUTES: I am an established technician in the industry for over 30 years working my way up through the camera department, shooting both main and 2nd unit material often as DOP/Camera Operator. More recently, I have focused my efforts on high end aerial cinematography using the latest drone and camera technology and teaming up with the best UK pilots. I was an integral part of the very first drone crew to be used on an Olympic Games staged in Brazil 2016 where we completed over 400 flights during the competition. I'm a family man, enjoy the countryside and always taking images. I'm dedicated and fit well into any team, often being let loose with a crew to shoot the brief.
