### Personal Profile

I am an ambitious Lighting-Cameraman with a variety of experience. In addition, I am a very capable Editor and Colourist. I have studied Film & Television academically through college and university and graduated with a degree in Film & Television production in 2015. I have had a wide variety of work experience in the Television Industry and have shadowed or worked as a camera assistant on programmes such as Emmerdale, Hollyoaks, Loose Women, Lorraine and a game show called Pick Me. Furthermore, whilst at University I was given the opportunity to work as Director of Photography on a pilot sitcom, Staff Room. The success of the pilot led to a commission of the series which was distributed by Comedy Central UK. I have also recently worked as the DoP for BBC Taster on a pilot episode of Gordon the Gopher voiced by Warwick Davis. It was BBC Taster's most rated pilot and is currently in discussion for a future development. I have almost a year's worth of full time employment working on corporate and advertisement content for an independent production company called Skatta. I am always keen to learn and educate myself with the fast pace of the industry and the development of new techniques and technology within the industry. I am a member of The Guild of Television Cameraman where I attend many workshops and seminars in order to do this.
