Reference

Jaymes Milner has worked with me on about four occasions at The Actors Centre, Covent Garden, London over the past year or so as technician/crew on TV Presenting courses. His roles have been camera op, setting up two floor lights, rigging the mic on a stand, recording and playing back footage, and supplying participants with unedited files of their work. The shooting is mostly interior, on the tripod, static mid-shot, 2 shots of participants who are seated/standing, with some exterior hand held walking and talking to camera and vox pops.

Jaymes is helpful and technically able to do the above requirements. He works quickly and efficiently, and is a pleasant member of the team. I could recommend him for this type of work.
