I was a staff production secretary at Central Television for 8 years after which time I moved into Floor Management. I worked in this capacity at Central for 2 years until February '91 when I became freelance.

I have Directed 5 half hour episodes of 'Doctors'.

I have 'A' levels in English and French, 8 'O' levels and RSA 1 typing. I am Movie Magic and computer literate. I have a clean driving licence. Having worked in Spain for 9 months I also have a working knowledge of Spanish along with a second home there.

I am very keen to work in Canada and although having Line Produced for the past few years would happily consider work on the floor/location.
