## ABOUT

An ambitious camera and Steadicam Operator, Tom combines technical wizardry and specialist knowledge with a keen eye for composition. His passion for light and lenses is demonstrated in his work on the recent BBC 2 series, "Schama on Rembrandt" and the popular "Night School" series with BAFTA nominated director Jack Jewers. Night School was voted best Web Series on the Planet by Indie Series Network (Feb 2015) and will be screening at ComicCon UK, the Marseille WebFest and the LA WebFest in 2015.

Tom is a floating camera specialist, in the last year he has been testing and shooting with prototype 3-axis gimbals but is equally at home in a Steadicam vest. Tom utilised the DJI Ronin prototype, the Movi M5 and the G-Lock prototype gimbals to shoot the majority of a Night School episode and some of the latest Nigel Slater series for BBC 1.

*His reputation for versatility and efficiency is matched only by his drive to create original and stunning imagery.*

---

## SKILLS
