DESIGNER - DANCE AND LIVE ART PERFORMANCE 1987-1993

In 1987.I set up a performance company, Limn Gaza, where I designed and devised 'Parade' and 'After Parade' with a choreographer and musical director in multi-storey car parks. 'Parade' was originally inspired by Jean Cocteau's ballet of the same name.

'After Parade' won the most original contribution to the Brighton Festival and was then staged at the ICA, London. Limn Gaza then won a Barclays New Stages Award and funding from the Arts Council and the Gulbenkian Foundation to stage 'The Joy of Return' at the Bluebell Steam Railway.

EDUCATION
