## ASSISTANT EDITOR

STACEYCAIN@ME.COM 07932998154 LONDON

I'm currently a skilled dailies assistant that has worked in the past in TV post production as a Assistant Editor. As a dailies assistant, my duties include: processing rushes by marking up scenes/slates, filling in metadata for visual burnin/Avid meta columns, QC all rushes, syncing audio in Avid, and working closely with editorial teams to liase with any additional support they need.

I've developed a keen eye to detail to keep metadata and information consistent. I've worked on digital and film feature films, so my additional knowledge of dailies and how it's processed would help any editorial team.
