"Paul Cowell and I worked together for over six years on eleven separate films. He is a brilliantly inventive designer who has a wonderful knack of creating the most terrific worlds with a palette often limited by time and money. In one of our most recent films he turned a semi-derelict manor house into a luxurious spa hotel with a style I expected to be far beyond our budget. Whoever ends up working with him could not hope for a more enthusiastic, ingenious designer."

Renny Rye  
(director)
