

Ben Langley – Camera Assistant / Operator - 07887993304

7 Crimsworth Avenue, Whalley Range, Manchester, M16 0EB.

I worked for a facilities company for 5 years before going freelance so have a sound technical knowledge of a wide range of equipment. I have subsequently worked on a wide range of projects including documentary, Factual Entertainment and a variety of Multi camera jobs.

I have a good working knowledge of most current camera formats including Alexa, F5/F55, C300 and enjoy getting to grips with new formats and technology. I also have extensive Movi M10 experience as Tech/Operator and Focus Puller. I am familiar with data wrangling most record formats and workflows and can provide equipment if required.
