Magic Grandad	CBBC
Summer Job	Radish Films
Overnight in hotel for Casualty	BBC

I have done a large variety of chaperoning work in theatre, television and film. Most recently I was heavily involved in the care and transport of young performers in the touring cast of Disney's 'The Lion King' and well as chaperoning for the Bristol Proms.

In television and film my experience is vast, having worked extensively in the UK and even chaperoned children abroad - most notably my work on 'Moonshot', which was filmed in Lithuania. I have garnered a reputation for efficiency and reliability in the industry, as well as care and support for the young performers I have worked with.
