Personal Statement.

I am an extremely motivated and enthusiastic Sound Assistant working in Film and TV. I graduated from the University of The West of England with a First Class Degree in Audio and Music Technology. Since graduating I have put all of my time into building my freelance network in Film and TV sound, through experience and training I have gained excellent knowledge of the processes needed to capture great dialogue on set, as well as hands on training of industry standard equipment.

Testimonials.

"Having had the pleasure of working on numerous projects with Mark I can safely say without a shadow of a doubt that he always provides for a project in a way that exceeds each projects expectations. His enthusiasm, good nature and exceptional talents at audio work has made each project of ours a cut above the rest. Always helpful and very reliable, I have no hesitation in recommending Mark to anyone wishing to have excellent audio for their project - Thomas Bennett - Generations Film Productions"

"I can't recommend Mark highly enough, he did a fantastic job on our four day shoot for PLAZA (a short film). Mark is not only very talented but he also has great problem solving skills, especially when encountering some tricky sound issues. We were lucky to have him on board. He is lovely to work with, extremely professional and did a hands down brilliant job, will definitely work with him again! Hannah Hill - SawWave Films"
