

## Profile

**Experienced documentary AD, moving into features.**

I have Assistant Directed on low budget features and 100+ episodes of docu-drama and have worked closely with stunt and special effect teams. I've worked with directors of varying experience level and learned to schedule within tight budget constraints. My experience working in other areas of production, including acting, art department and editing, gives me insight into how best to support the rest of the team.

Outside TV I have produced my own theatre work, including several runs at the Edinburgh Fringe Festival. I have written, directed and edited my own short films and am currently editing a new series of video essays exploring boardgames and neurodiversity.

## Work History
