PROFILE

Reaching 20 years' experience working within the TV and film industry, both in HETV drama and factual entertainment. My skills base is transferable, and I have been able to utilise these skills for several contracts within both drama and factual entertainment productions. With any filming project it is a necessity to think on my feet and implement plans, especially any last-minute changes, quickly and effectively. I am able to adapt to extreme pressure situations confidently and am able to deliver results within strict deadlines.
