### Profile

A mature trainee makeup artist, I am calm and confident working under pressure both independently and within a team. Creative Skillset HETV Trainee in 2017, I combine attention to detail, with stamina and a strong work ethic. Having recently completed a twenty months' course in Media Makeup and Hair (TV and film make-up, casualty and special effects, fashion, editorial and bridal make-up hairdressing, barbering, wig preparation) from School of Makeup Manchester, I am looking for further trainee and Junior makeup artist opportunities to gain invaluable experience learning from and assisting my peers within the industry. I have a passion for period drama and have worked on productions set in Edwardian, 1920s, 30s, 40s and 50s periods, as well as contemporary drama. I also have almost 20 years' experience as a commercial face and body painter.

**Key skills:** professionally trained in TV straight make-up, ageing and camouflage, airbrushing, bodypainting, special effects including making and applying bald caps, wounds and casualty effects, period makeup and hair, wig preparation and styling, women's hairdressing, plaiting, setting, dressing out and hair ups; haircutting; (one length, long graduation, uniform layer and short graduation techniques), barbering (Level 2) and facial hair cutting using scissors and clippers.
