603/5242/5

# **PROFILE**

## **Key Skills**

I am an easy going, adaptable hardworking and versatile individual one who has had a varied employment history including work in industries worked in include

Transport and Logistics,  
Tourism,  
Entertainment,  
Safety and Security,  
Administration

Work Undertaken within those a variety of roles has at times required the learning and use of a significant number of skills which will hopefully be of use in the future too

Just as the skills needed have varied from job to job so also has the method of working generally in one of three ways

- 1), Some as part of a team
- 2), Some were Solo, (E.g. as a PCV Driver),
- 3), A few, (such as the Organisation and staging of Pop Concerts and Balls), utilizing both methods of working

However whether the activity was public &/or customer facing or behind the scenes my communication skills and the ability to seamlessly interact at all levels in Society has over the years opened doors that might otherwise have stayed shut, given me experiences and challenges that help to make me the person I am today

I am always open to new career opportunities, training and or courses that will help me be a more useful employee/team member and I feel I have a wide range of skills that could be used in a wide variety of jobs including:

1), **Excellent interpersonal skills**

(Especially useful when contracts are needed or negotiation of Contracts and/or Terms and Conditions is called for &/or

(If unexpectedly caught up in tense situations Eg. crowd trouble, Trespassers &/or drunk/arrogant passengers etc)

**2),Able to work to tight deadlines &/or timings**

(Including deliveries etc within a JIT framework)

Plus

Transport of Passengers, (incl Presidents, VIP's, PLC Directors etc)  
(To/from airports, railway stations board meetings, media commitments  
etc with all/any problem solving if required)

---
