Bases - Manchester UK - Toronto Canada

I started my career in the film and television lighting industry at 16 years old in 2003 when I completed a 5 year modern apprenticeship with LEE Lighting Ltd.

There I became a fully qualified (City & Guilds level 1,2,3 and BS7909) electrician, gained experience working on all aspects of filming from commercials to period dramas and 3D feature films.

Having worked on such a range of projects I have a full understanding and consideration of working within the parameters of any particular budget and given schedule. I am also capable of communicating well with others including the DOP, Director and Line Producer to help interpret their visions in to a reality.

I am professional, approachable and highly motivated; with me comes a fantastic team of hand picked, driven individuals
