

JIM BROWN

FREELANCE DESIGNER & ILLUSTRATOR
FOR FILM AND TV

I am a 23 year-old living and working in the city of Nottingham.

In my work I have fulfilled the role of production designer and art director, but have also completed projects as a storyboard artist and graphic designer. My skills lend themselves to a variety of jobs in the art department for the film and TV industry, making me a valuable all-round worker.

I have experience working alone, and as head of a small team, managing budgets and schedules to achieve the vision of a project.

I currently work in the East midlands area, and the Bristol/Avon area.
