PERSONAL STATEMENT

With over twenty-five years in production finance, I've worked across all formats including Feature Films, High-End TV Serials and Series. Credited alongside some of the most respected names in the industry, I feel I have experienced and risen to the unique challenges each production creates.

Based across the UK and mainland Europe, including Prague, Budapest and St Petersburg, I have experience in reporting in multi-currency, using various accounting software packages including Eclipse, Money Penny and Global Vista.
