Car owner with clean UK license and van driving experience.

Based in Manchester but available anywhere.

Enthusiastic designer and art department crew member with experience in TV drama, Film, promos and music videos. I've been working in Stand Art Direction and Production design for Commercials, but I have recently been looking to bump up my HETV Credits in the buying department.

I'm experienced in concept development, and with an eye for the practicalities of designing and propping for film and photography as well as fabricating set designs and props in different media.

In previous positions I have designed and assisted and creating incredible visuals and would love to bring that experience to your team.
