I'm a confident and approachable art department member with a passion for TV & Film. I love creating and making things with my hands. I'm also no stranger to Adobe and can turn my hand to digital graphics when needed. I am a proven team player with personal skills, and find my friendly nature allows me to communicate effectively and maintain good relationships with everybody across the board. Eager to learn and progress, I welcome a challenge and I'm always happy to get stuck into a task. I'm looking for art department/graphics assisting opportunities in which I can continue to learn and progress within an experienced team.
