Interests

In my spare time I am taking photographs and adding to my portfolio. I have found my passion when it comes to photography and I am keen to take it to the next level and make it in to a career. When I'm not out shooting I spend my time taking part in outdoor activities such as skiing, wake boarding and hiking. I find my love for the outdoors goes hand in hand with my photography and this has helped me to develop my own style.

Summary

Whatever the brief or subject I love to shoot and get creative. I have the ability and experience in a wide range of photographic genres including Adventure, Landscape, Documentary, Exterior & Interior, Product and Portraits.

I'm highly adaptable with my work, and comfortable and confident with my abilities. This means I am able to quickly adapt and react to any situation whilst remaining professional and in control – which translates into quality photos whatever the conditions. I'm always looking for the next adventure and the next way I can progress and develop my skills, so whatever the brief involves I'll throw myself into it with everything I have.
