Personal Statement

As a young professional with a BA(Hons) degree in Design for Theatre, Performance and Events I have a keen interest in costume for performance. My large breadth of work experience working for ITV, BBC & CBeebies has allowed me to excel in working within a team, adapt to any situation and developed confident communications skills. I am very personable and I fit well into a team allowing me to problem solve costume solutions effectively within the fast pace environment of screen and live productions. I am also a costume maker who can carry out garment construction, alterations and embellishment.
