Work Experience

Student Ambassador (Freelance)

Keele University, Newcastle-under-Lyme | 23rd September 2019 - 25th August 2020

- Spoke to prospective students and their parents about my course and the university, developing my interpersonal and communication skills.

Volunteer and Intern

Cross Rhythms City Radio, Stoke-on-Trent | August 2019 & 23rd June - 13th August 2020

- Wrote articles for the radio's website, edited together radio shows on Adobe Audition, used the broadcasting equipment, did radio interviews, interviewed artists, updated their digital database, sent out emails to musicians and agents, and edited videos on Adobe Premiere Pro for their YouTube channel.
- Worked closely with all departments, making me versatile and proactive.
- Trained new interns and compiled a document with practical advice, which the organisation will use in the future.

Intern in Documentary Unit

Bolivian Express Magazine, La Paz (Bolivia) | 15th June - 14th July 2019

- Researched the project, found contributors, planned the shoot and coordinated meetings.
- Developed my Spanish language skills by exclusively speaking Spanish to contributors.

Digital Student Ambassador (Freelance)

Keele University Marketing & Communications, Newcastle-under-Lyme | 5th November 2018 - 31st July 2019

- Made YouTube vlogs and employed social media to promote the organisation and its events.
- Managed my own projects, so I had to rely on my time management and organisation skills.

Intern in Culture section

Luxemburger Wort, Luxembourg | 13th August - 14th September 2018

- Wrote articles in French about upcoming events, concerts, gallery openings, art shows and archaeological digs.
- Contributed to multiple columns.
- Digitised print newspapers and used archived material in articles.

Summer Intern in Tyvek Quality Control section

Dupont de Nemours, Luxembourg | Summer 2017 & Summer 2018

- Made procedural videos for training and internal use in German (filming, editing & subtitling).
- Learned how to work under time pressure as 80 10-minute videos had to be made in a month.
- Calibrated and used an extensive list of engineering machinery, including Instron machines, to carry out quality testing.
