## About Me

Growing up I believed I could be at least seven different things at once. Although being a chef and famous writer by day and a member of Charlie's Angels by night may have been a logistical nightmare, I knew above all else I didn't want to be boring. I always loved art and despite being told it would get me nowhere I stubbornly held onto my dreams until I found my way onto the set design course. Today I still feel that I can be so many different things. I throw myself into every project I encounter because I love what I do. I can't stop until I have done all I can and learnt all I need to do the best I can.
