About me :

I am a freelance interior designer with over 15 years experience in the industry. I have worked on a wide variety of projects in this time and would love to broaden my horizons even further to the TV and film industry. To confess , I am a huge film and TV nerd. Film was the reason I wanted to become an interior designer, I was always inspired by the settings and was obsessed over the subtle details. So, I would love to combine my two passions which are design and film. I feel that my broad experience would prove a valuable asset to your team, which I would love to be a part of.

Areas of expertise:

- Creativity and innovative input ; I pride myself on my creative skills and my constant ability to think outside the box.
- Product knowledge; I have an excellent product knowledge and have a passion for finding new and exciting products.
- Eye for current trends ; I have always had a keen eye for detail and can recognise new trends before they have peaked. This has always worked greatly in my favour when working on design projects and when selling to new clients.
