ABOUT ME/ EXPERIENCE

I'm a Menswear Designer by trade, living in Berkshire, having moved out from London in 2017. I decided to make the pivotal move into TV & Film as a Location Scout earlier this year and, in the Summer, completed a Location Scouting Course at the NFTS to learn the process of Scouting and to have that formal accreditation.

Although I haven't formally worked as a Location Scout, yet, I have 2.5 years experience managing my own successful Location House in Berkshire, an American Ranch Style Bungalow, and having had some pretty large and high profile shoots at the house, I have gained a lot of valuable "on location" experience from these alone, from liaising with Location Agencies and Production Staff.

Below is a breakdown of the biggest and best shoots we've had so far and, for most of these, I was the go-to person on site, often assisting the Location Team in liaising and negotiating with neighbours and locals for use of their driveways, either for additional crew and production parking or, in some cases, being in shot. I also advised, on local parking for Unit Bases. For each shoot I prepared our Garden Studio for use as a Green Room/Makeup/Wardrobe and our Patio/Bar Area for use as a Tea/Coffee station or extra space for crew and equipment.

Furthermore, I have another location which I manage in South Wales, on my family farmland, [an old stone cottage](#) with a lot of land around it for Production use. I prepared a professional Scout Report for it and, with this, secured representation from several London Location Agencies.

AMERICAN BUNGALOW SHOOTS

ROYAL BLOOD MUSIC VIDEO - "PULL ME THROUGH" - First Credit **Say Goodnight Films/Warner Music - July 2023**

Music Video for Royal Blood involving a prop car containing the lead Actor being, filled with water - cast and crew of around 40. For this I managed the location and traffic on the street. They mostly filmed on our Driveway but as they had a Permit to film on the street, I stepped up to manage the Location and surrounding area and keep the neighbours and locals happy and informed. There was also 38 tonne/20,000 litre Water Truck parked on our other driveway to fill up the prop vehicle.
