

MS

Mariana Sousa

Professional Summary

I am a creative filmmaker, passionate about all the phases of production within the medium. I have excellent communication skills that allow me to work well collaboratively, but I also thrive and enjoy working on solo projects where I can explore my creativity and develop my knowledge. I am open to learning new skills and taking on all manner of projects, especially where this presents me with further avenues to explore. I have predominantly worked on short fictitious films but have also collaborated on documentaries and music videos as a director, camera operator and gaffer.
