ABOUT ME

I am an internationally experienced and globally published artist with extensive experience across period looks, working at a fast pace and to high standards. I began with a hairdressing apprenticeship 22 years ago, and moved into photographic makeup 4 years after that. I am not specially trained in prosthetics, however have undertaken a wide variety of light effects makeup for film assignments such as small cuts/scratches, sweat, bruising, dirt, and so on. Please visit the website for sample portfolio images of my work.
