Summary

I have over 30 years experience in the film and television industry and have worked as a Production Sound Mixer in Drama, Documentary, Light Entertainment, Short Films and several independent Features. I have extensive experience as a Sound Supervisor having worked on a large number of television outside broadcasts in Sport and Music for many mainstream broadcasters.

I have a wealth of experience recording large scale music productions both as live events and as studio productions. I also own a large amount of high end audio equipment transported in a custom built production van.

Key Strengths

- Experienced production sound mixer and sound supervisor
- Technical skills in all aspects of sound recording and mixing
- Owner and operator of full drama production sound kit
- Live sound engineering experience for music and live events
- Skilled in post-production audio editing using Logic, Pro Tools and Fairlight.
- Strong knowledge of sound design principles to create immersive audio experiences.
- Experienced sound mixer on drama, film and live TV shows
- Problem-solving abilities and strong team leadership skills in challenging environments.
- Full UK driving license including HGV Class 1
