

# ISLAMCLEOD

Having worked in costume for 3+ years, I have developed end-to-end skills, which allow me to take a project from ideation through to final delivery. I love to work with tangible outcomes, sharing the final result in a cinema or theatre full of my colleagues who have all worked as hard as I have - being proud as a team.

I want to play a part in creating something that people enjoy watching as much as we enjoy creating.
