About Me

Motivated [Film maker] progressive experience. Energetic self-starter and team builder. Navigates high-stress situations and achieves goals on time and under budget. I am always eager to learn new thing from people. Love to more about new gears such as Cameras, glide cams and Audio equipment's. i am also keen learn new things. I am also a new freelancer in Videography and Photography.

Professional Experience

DIT/CAMERA OPERATOR, 11/2022-11/2022

BBC Introducing-Nottingham,Nottinghamshire

- I helped film for BBC introducing new their new Artist in Nottingham. this is the perfect opportunity for me to gain more experience. Dean Jackson who was works with BBC asked film students from Nottingham Trent University, so I decided to participate. My role as an DIT was to back up all the footages from the SD cards and the CFAST cards to the hard drives throughout the day. I was working directly with the camera operators to help with digital knowhows of the camera. I also filmed some close up shots of the artists performing their songs. I gained so much experience with different types of cameras.

Camera Operator/Audio Assistant/Photographer 10/2022-10/2022

Fifth Word Theatre-Nottingham, Nottinghamshire

- I participated in fifth word's production of We Need New Stories. This production was mainly about gathering and platforming stories of migration from first- generation Zimbabweans. This all took place in the Nottingham Play House. Fifth word organized a workshop for young people of African and Caribbean heritage to be trained to conduct, film and photograph the migrants from Zimbabwe. So I applied and with my previous knowledge in film this helped me. My roles were Camera Operator, Photographer, Audio Assistant and I was also an interviewee.
- I wanted join the We Need New Stories project because it was a good opportunity to improve my filming skills. It increased my confidence and communication skills and I learned so much about camera. Turns out that I really like photography more than filming. My favorite thing about the project was the interviewing and photography afterwards - it was so nice to speak to interviewees whilst taking photos of them. I loved how varied everyone's stories were, the age of them was also varied, which was a good thing as you can get different perspectives for each person. I happened to work with my team and there was so much respect towards one another.

Film Assistant: 10/2021-Current

Heart Church-Nottingham,Nottinhamshire

- I volunteer in the media team at Heart church, I usually edit some footages that are later stream on social media like instagram. I use Adobe Premiere to edit, because of this i have become more comfortable in with editing. I am also more equipped in using cameras as I often have to film behind the scenes, or events that happen at the church. I have currently taken on the role of becoming a trainee in the film making and production side of the church, i am learning how to build sets, how to use different gears and different lighting techniques.

4skills channel 4 Work experience

I did 6 weeks course in film with channe 4, I learnt about the marketing, finances, commisions of the film industry. I have learned that making a filmmaking isn't all about creativity.

Camera Operator/Editor

Innovation Nottinghamshire

I did an internship with a 5G company called Innovation nottinghamshire, this internship required making short commercials reels about the benefits of 5G. I came up with a shotlist and plan on how to film and edit the video. This was such an amazing experience for me as I got the chance to work in such a professional enviroment, it was refreshing working with people interested in the same feiled as me.

Achievements

- I am the vice President of the Filmmaking Society at Nottingham Trent University.
