I love the buzz that comes from being at the heart of a film set. I love the connection, the excitement and the countless opportunities it presents to be creative, especially when it comes to problem solving. I am a good team player and enjoy the challenge of learning new skills.

I am familiar with a variety of digital format cameras, including professional shoulder-mounted ENG cameras, Black Magic Cinema Cameras and DSLRs. I had the privilege of operating, loading and focus-pulling on various super 16mm short student films, which proved to be extremely demanding and hands-on. The focus and precision when shooting on film is extraordinary especially when it comes to splicing the 16mm film together on a Steenbeck flatbed editing table.

I am an avid reader of fiction novels and love seeing my favourite stories come to life on screen. The mesmerising and iconic works of Steven Spielberg have a special place in my heart. When I'm at the beach you'll rarely find me on land, I take great pleasure in snorkelling and recently tried my hand at surfing. I occasionally knit and am enjoying learning Spanish. I love to bake cakes – the perfect accompaniment to a round of tea...or coffee!
