About me

Freelanced as a graphic designer for the last 10 years, now working as a Creative Animator and freelance photographer. Being a digital/graphic designer helps in knowing the end product of where stills are used. I have 5 years experience on set for short films and recently shot my first tv documentary for Sky TV and shot my first paid feature film end of 2024. I have had several years experience behind the camera and in-front. I am a ninja on set, and not afraid to get the shots needed (by asking permission of course) I am currently based in West Sussex.
