

# KAROLINA JAGIELLOWICZ

A passionate and adaptable creative with experience across television, films, photography, and social media. Looking for a Production Runner, Location Assistant, Camera Assistant or Researcher position.

I bring experience working on creative sets and 10 years of working within the hospitality sector. Having collaborated on independent projects such as fashion photography, commercial photography, music videos and capturing music events and markets, I have developed strong adaptability and organisation skills, confidence under pressure and the ability to thrive in fast-paced environments.

With an early background in filmmaking, including training through BFI and NFTS courses, I understand the importance of teamwork, maintaining a positive attitude on set and attention to detail.

My recent 9 months at Films@59 further inspired me to pursue a long-term career in television, and recently spending a month working on *Animal Park* has given me even greater motivation and drive to continue growing within the TV and film industry.
