

A contemporary and versatile composer, multi-instrumentalist and music producer with a specific proficiency in Synthesis, Sequencing and Electronic Music Production Techniques, who specialises in creating atmospheric textures and minimal, melancholic compositions, from tense and haunting to optimistic and beautiful.

Prior to my media composition career, my electronic outfit NO CEREMONY/// twice became the most blogged-about artist in the world (via 2010's music aggregator website The Hype Machine), was lauded by industry staples Mary Anne Hobbs, Zane Lowe and Huw Stephens, toured worldwide supporting Foals, Pixies and Crystal Fighters and won LA Times' Best Newcomer award at SXSW 2012.

I began my media career composing the original score for award-winning Cuban psychological horror feature '¿Eres Tú, Papá?' ('Is That You?') and have since worked on various films funded by BAFTA, BFI, Arts Council, Sky Arts and BBC New Creatives.

Passionate, friendly and diligent, I am experienced in delivering high quality creative output that achieves the desired outcome for the project under high pressure conditions and to tight deadlines.

## SKILLS

Comprehensive understanding of Modular and Fixed-Architecture Synthesizer Programming

Significant expertise in industry standard Music Production Software (ProTools / Ableton)

Creative performance under pressure, in both live tour and studio deadline scenarios

Punctuality, time and resource management
