Personal Statement

Recent Film and Television Production graduate looking for Entry Level Runner experience. I have a broad knowledge on the film industry and have been on sets during SA roles.

Transferable Skill Credits

Performer (Alton Towers) 2023

We often worked in teams to scare people in a horror maze where we had to plan out where we were positioned and how to build our partners' scare. Time keeping was a big factor too as timing was always key to a successful reaction from customers when scaring.

Bartending (BYC) 2022

Communication was a key element with this job as you had to communicate with customers to get the order correct and to communicate with staff for help at any time.

Assistant Photographer (Freelance) 2019

When working on the shoot I always asked for advice and watched what the lead photographer did to keep in mind if I ever got myself a photographer job and I had to assist someone who was learning from me.

Instructor (Go Ape) 2019

As an instructor I was given instructions during training so I knew how to do my job safely.

Stagehand (Stafford Gatehouse theater) 2017

This was my first experience of feeling tested when it came to a job involving multitasking where I'd have to spontaneously do something during the show even if I was working on something else at the time.

Uni Projects

Short Films - Written/ Directed/ Produced.
Scripts/Screenplays
'The Lost Episode' 2021
