## Who are you? *who? who?*

I graduated (2021) with a BA(H) in Design for Film and Television from Nottingham Trent University. In addition to the skills I learned on the course I have many years experience of art, design and making as creativity has been a life long passion. I have made props for various Film/TV productions and made prop replicas. I'm a hobby ceramicist and I also regularly take part in courses to improve my skills. I work well in a team and very much enjoy getting my hands dirty.
