

# AMELIA CLOSE

## GRADUATE FASHION PHOTOGRAPHER

Open to move for work.

### ABOUT ME

Having just finished my degree in Fashion Photography, I am looking to learn new skills and bring my team working spirit to a hands-on job. I enjoy being busy on set, applying my problem solving and creativity skills to assist others.

From attending workshops at university and being on sets for photo-shoots, I have gained experience and knowledge of using equipment in photography studios. This helped me learn about technical equipment as well as health and safety in studios.

Previous jobs have taught me the importance of keeping order in the workplace and maintaining organisation within my own tasks. I ask questions when unsure, but once I've been told the order of things, I use my independence to do my job efficiently. I am proactive both during and between tasks using any spare moments to occupy myself with keeping my workspace clean and do any jobs that may help with the work flow.
