PROFILE & EXPERIENCE

Working as a Sound Recordist/Sound Assistant, I've developed the skills to work fast, facilitate quality audio and be prepared for anything. Many of my jobs have been in unscripted TV, often in uncontrolled environments and working in a 'run and gun' style. I've encountered blazing rows, thrown drinks and frantic escapes. I've learned to hide microphones in all kinds of places and never lost a piece of kit. I approach each contributor in a open minded, respectful and tailored way. I'm fun, diligent, hard-working and egalitarian.
