

Bethany Charles

Personal statement

I am very hardworking, understanding and enthusiastic for the projects that come my way and drive to create quality work. I have knowledge in filmmaking and directing that helps me have strong communication skills that allow me to have good problem solving skills.

When assigned a task, I make sure to give it my absolute best I take personal responsibility for completing it in the given amount of time, which leads on to my reliable management skills of time and punctuality.

I have been successful in working in large and small teams (helping out by filming in the Brighton Dome and recording a fashion show at the Brighton Met College), by working with multiple students . During my first year at university I have worked on a music video, and film set. I am steadfast while working on any project to make sure it reaches the highest quality.
