Mathematics (6), English
Literature (8), and English
Language (7)

Key Skills

Premiere Pro
DaVinci Resolve
Photoshop
Silvermouse
Sony FX6 Camera
Zoom F4 Sound Recorder
Showreel creation

Personal Statement

As a dedicated young professional who recently graduated from the University of Bristol studying a degree in Film and Television, I am competent using Photoshop, Sony FX6 cameras, Premiere Pro, DaVinci Resolve, and have experience in event filming, costume department work, and non-scripted programmes, aiming to embark on a career in film and television production.

Experience

March 2024

Work Placement • Drummer Television

June 2023

Event Filming • Assistant • Beeston Media Video Production

June-August 2021

Costume Department Assistant • Rebellion Film Studios

Through these opportunities I have acquired skills in pre-production such as research and background checks; production such as photography, capturing b-roll footage, operating the boom; and post-production such as using Silvermouse and social media marketing.

Communication

I enjoy communicating with others. Experience gained through public speaking, presentations, and working in groups for my course, as well as my industry experience.

Leadership

I developed my confidence in leadership roles through secondary school drama and dance competitions and being a prefect. In university presentation groups I have taken charge to allocate roles to each member and sustain communication throughout the project. I have recently co-directed a short film for my course.

Teamwork

In school, I helped to organise a photography exhibition where we designed and created the room, created artist plaques and posters, and hosted the opening evening. The group-orientated projects in my course have aided in advancing my teamwork skills. Recently I was part of a group that created an interactive documentary on artistic inspiration in Bristol and we were awarded a first-class grade due to our inventiveness and creativity.
