About Me!

I am an 19 yr old aspiring hair and makeup artist that has always had a huge passion for it. I am constantly creating new looks and pushing my skills to succeed in the industry. In my education I have gained many new skills, especially what an MUA needs to do in preparation for a shoot or production.

In the process of this I have gained confidence within my work and also leading production meetings to keep my fellow MUAs up to date and making sure everyone is comfortable with the work that is set.

Personal Skills
