Profile

I have a full, clean driving licence and am fully competent and trained with a variety of software packages including Microsoft office and Adobe including photoshop, databases and all the major social media platforms

I am looking for an entry level role in film, media, hospitality and am available immediately.

Work Experience:

Events Coordinator

Rabbit Hole Events

I am currently part of a project creating and running events in venues across Leeds. I am responsible for the design of the events as well as helping coordinate the night as it happens including all organisation before the event, including : finances, equipment hire, venue hire, artist bookings, marketing and promotion.

Floor Staff and Floor Supervisor

Escape To Freight Island

Escape To Freight Island is one of the biggest eating and drinking venues in the UK and on a busy night there will be thousands of bookings. In the year I have been part of the team I have built a strong work ethic and learnt how working hard and conscientiously throughout a shift can save everyone more work later. I proved to myself that I can handle a large volume of work and late nights often whilst juggling other jobs in the film industry. After working here I believe I am very well prepared to work at any venue in the Hospitality Industry.

Locations Assistant

Everything I Know About Love

In my longest stint working on a film/ television production, I built professional relationships with everyone in production and built a level of trust so I was given more responsibility and left to my own devices in order to get key tasks completed. I learnt not only to work more effectively on my own but with the rest of the locations team and the other relevant departments.

Covid Assistant

COBRA

Helped enforce social distancing and the use of masks, as well as the cleaning of sets and other covid related procedures.

Locations Assistant

COBRA

Using my communication, planning and on the spot problem solving skills and working with a stretched budget, I was able to make a major contribution to the locations department when they were under enormous pressure to facilitate everything the set needed with limited resources and man power. However this gave me plenty of opportunity to prove my ability to work effectively and cooperatively under pressure.

Locations Assistant

Intergalactic

Working as a location assistant for two weeks on location in the Peak District, here I was able to learn the basics of being a locations assistant, developing my understanding of how a film set operates.

Locations Marshall

Everybody's Talking About Jamie

Working with film location staff assisting with marshalling duties and general location operations as well as liaising with other departments including Facilities, Production and Catering.

Bar Staff and Floor Runner

Scotsmans Pack Hathersage

The Scotsmans Pack gave me significant experience in being solely responsible for customers and being in a leadership role in the front of house area of the business. I also received specific training including the use of tablets and computers, as well as cash handling and teamwork.

Farm Hand

Leadmill Trout Farm

Leadmill Trout Farm is a local Peak District spring fed trout farm based in the Hope Valley, responsible for stocking most of the region's rivers, ponds and lakes with blue, brown and rainbow trout.

Built a strong work ethic, with long hours of intense labour in a very fragile system where any mistakes could result in the loss of all the farm's stock.

Using initiative and problem solving to successfully accomplish very specific unforeseen tasks that in many cases one cannot be trained for.

Strengthening of commercial awareness of a very specific market where a lot of variables affect the supply and demand of both product and source materials.

Host, Bar Staff and Waiter

The Hathersage Social Club

I worked long hours in this very busy restaurant and social space. I learnt many things about customer experience and high end dining as well as how to make work a fun experience benefiting everyone. I had bar training, learning how to make high end cocktails and I received wine service training. I also waited on here and helped to co-host various events for customers, such as cinema nights and themed meals.

Bar Staff, Carver, Waiter and Kitchen Porter

The Millstone Country Inn Hathersage

The Millstone Inn was where I first learnt to wait on and work the bar, however my main role was a meat carver at the carvery. In this role, I was mainly interacting with customers and serving them with what they required building my awareness of how to respond and speak to customers in the service industry.

Kitchen Porter

The Plough Inn Hathersage

Other than a paper round this was my first job. I started work here in the kitchens at 13 years old. I learnt to work hard under pressure and how to keep a cool head in a bustling kitchen.

Outside of work I am grade 8 in bassoon.
