PROFILE

I have always enjoyed and had an interest in film and TV. I attended numerous film festivals and became a volunteer for the Leeds International Film Festival (LIFF) I grew up in Leeds as part of a busy family that fostered children with additional needs. I was always active and became a keen sailor, lifeguard, and climber. I was an enthusiastic host and audio technician for my School radio, Roundhay Radio. As a neurodiverse person, I am good at finding unconventional solutions whilst working under pressure individually or within a team environment.
