## Personal Profile

Production Design Graduate from the Northern School of Art. My main skills are based in digital/traditional drawing (conceptual and technical) and model making. Directed by my passion for history, movies, architecture and design, I always take an analytical and organised approach to my work, with close attention to detail and theory. I'm a very adaptable team player, having experience of freelance conceptual design work and being a team leader, designing and managing a set build. I am seeking for a role that will challenge and improve on my existing creative skill set and knowledge of design.
