Profile

Having achieved high academic success, I am eager to transition into a professional environment to further develop my skills and gain practical experience. I have consistently enjoyed working as part of a team across various contexts, including my jobs, educational settings, and extracurricular activities. My strong adaptability allows me to effectively address and resolve tasks and challenges as they arise.

Music is my primary passion, and I have cultivated a wide range of interests and skills within this field. These include sound engineering, acoustics, composition and production, programming, and electronics. I am proficient in playing several instruments, particularly the guitar, which I play at an advanced level. Additionally, I have applied my technical knowledge and creativity to design and build my own effects and looping pedals from scratch. This blend of musical talent and technical expertise underlines my commitment to continuously learning and innovating within the realm of music.

Education

BIMM Bristol SEPTEMBER 2020 — JUNE 2023

First-Class Honours in Music and Sound Production

North Bristol Post-16 Centre SEPTEMBER 2018 — MAY 2020

3 A-Levels at Grade C and above

Employment History

Chef, Bella Italia, Bristol SEPTEMBER 2023 — PRESENT

I hold various responsibilities, including managing stock, training new employees, and overseeing the kitchen in the head chef's absence.

Inventory Clerk, Inventories4U, Brighton MAY 2022 — AUGUST 2022

Compiled inventory and checkout reports for rental properties, efficiently recorded their condition (including noise control levels), created weekly invoices, and managed a dynamic daily schedule.

Crew member, McDonald's, Brighton APRIL 2021 — JUNE 2021

I gained experience in a customer-facing environment and worked as part of a large team, contributing to the delivery of efficient service.

Other Experience

Stage Crew and Artist Liaison for Shambala and Starry Skies 2023

Responsible for fulfilling artists' technical and food riders, and assisting the main sound engineer and stage manager.

Work Experience at Access Media College JUNE – JULY 2017

Utilized in-house equipment and software to create a song and music video as part of a team.

Session Guitarist for a Local Band

Participated in studio recording projects.

Skills

Proficient in Microsoft Office, Adobe Illustrator, and Premiere Pro
Extensive experience with audio software including Ableton and Logic
Programming experience in C, Python, and Max MSP
