

Cover Letter- Camera Trainee

To whom it may concern,

My name is Bella Peterson and I'm a camera trainee based in the North. I have recently completed a 5 month Camera trainee scheme on Waterloo Road.

During this time, I have learned a multitude of skills both on set and off. Through my training I have learned how to set up monitors for focus, script, directors and checks, this includes setting up Vaxis receivers and Vuer (with 2 servs and a link for 2nd camera days).

As a trainee, I have also been learning the value of organising kit and being stood by on set to assist the focus puller and loader when needed.

On Waterloo Road, I have had chances to perform some of the on-set loading skills such as swinging lenses, clapping the board and camera note taking. I have also completed some off-set loading responsibilities such as loading the camera truck and booking in kit.

I'm grateful for the experience gained during this scheme and am excited to get to know more people in the industry to see what knowledge they can provide me to further my education within the camera department.

Hope to hear from you soon,
Kind regards,
Bella Peterson
